*Every day I will be thoughtful, caring and kind.*

Dear Parent,

I am really pleased to break the news that our Headteacher and staff at Chipping Hill Primary School have been designated as an NLE (National Leader for Education) and NSS (National Support School); this is an amazing achievement and is based upon the high quality of teaching & learning and leadership within the school and our outstanding progress and attainment outcomes..

As a National Support School, our Headteacher and staff will use their expert knowledge and experience to provide additional leadership capability in other schools in need of support.

One of the key biggest issues in education at present is the recruitment and retention of high-quality teaching & support staff, with staff often needing to move to new pastures to progress their careers and develop their pedagogy further. We are now able to offer these opportunities as part of the career progression within Chipping Hill, retaining and utilising these skills whilst offering continued professional development for the staff and enhancing & refining our own outstanding methodologies and practices.

This is an amazing success for the school and reflects the continued effort, passion and motivation exhibited by the staff and the children. I am sure you will all join me in congratulating Mr Jones and his team for this fantastic achievement.

Kind Regards,

Barry Collyer

Chair of Governors
